

## Company Profile

Our company was established in 2012 in Abenase - GHANA. We are part of the PCC SE - German capital group. Using the newest technological solutions, aimed at supplying the market with high-end quality Palm Kernel Oil, Palm Kernel Shells and Palm Kernel Cake at competitive and market driven prices. Our current infrastructure includes three establishment - our main factory in Abenase, and our supporting factories in Bechem and Aketenchie.

As PCC Organic Oils is a responsible, environment-friendly and customer-oriented company, we are putting a lot of pressure on Quality Control. Therefore, we have placed a dedicated Laboratory in our Abenase Facility, in which all of our products undergo detailed tests and quality control procedures, prior to being released to the market.

## Close To Nature

We collect Palm Kernel Nuts and Palm Kernel from small farmers mainly family-owned enterprises located in the bush of Eastern, Western, Ashanti, Central and Brong Ahafo regions of Ghana.

Our Products are fully ecological and organic collected from small plantations that do not use fertilisers and other chemicals in the oil palm cultivation.

Our focus in relation to collection points is to make sure that we are receiving the highest quality, full organic Palm Kernels which, after processing will provide our Customers with the highest quality Palm Kernel Oil, Palm Kernel Shells as well as Palm Kernel Cake.

PUREST PRODUCTS FROM  
SUSTAINABLE ORGANIC FARMING

## Organic Palm Kernel Oil (PKO)

Our oil is packed with myristic and Lauric fatty acids and therefore suitable for the manufacture of soap, washing powder and personal care products as well as many more among number of industries. Lauric acid is important in soap making: a good soap must contain at least 15% laurate for quick lathering, while soap made for use in sea water is based on virtually 100 per cent laurate.

	UNIT	RESULTS
Moisture	%	0,2
Iodine value	Wij's	18,2
Free fatty acid	%	1,8 - 2,2
Relative density		0,884
Peroxide value	eEq/kg	13,9

## Organic Palm Kernel Cake (Expellers PKC/PKE)

#46094717

Palm Kernel Cake is produced out of Palm Kernel - after all the Palm Kernel Oil is extracted, the solid residue left behind Palm Kernel Cake is what is left. It is now well entrenched as a major feed ingredient in beef and dairy feed in the country. Palm Kernel Cake is widely used as a rich nutrient and an addition to cattle poultry diets among the world.

	UNIT	RESULTS
Moisture	%	2,2
Total ash	%	3,72
Protein	%	13,15
Crude fat	%	11,03
Calcium	%	0,12

## 100% Natural African Black Soap

Hand made black soap is a new product in our offer. We use only natural and plant based ingredients. Our main ingredient used in the soap production is certified by ECOCERT organic palm kernel oil and potash made from cocoa pods using traditional methods. The black soap has antibacterial, antifungal and moisturising properties and can be used for all kinds of skin types. It is known to have great benefits in curing breakouts and problem skin yet being gentle to sensitive skin soothing irritations and improving skin texture. Thanks to shea butter and vitamin E content it may help reduce skin redness and overall appearance of stretchmarks and scars. Together with coconut oil it encourages new collagen build up while reducing fine lines and wrinkles additionally protecting against photoaging. Its rough texture and essential nutrients exfoliate dead skin cells making the skin smooth and soft. Black is soap is gentle enough to use on the face, hands and body.

We can also produce a variety of black soap including shea butter, coconut butter and other natural oils and honey. We are able to supply the black soap in the form of soap noodles, cold pressed bars, 3kg and 10 kg blocks.
